### Pressing Concerns

On Friday, Oct. 29<sup>th</sup> during open office resource hours a person experiencing homelessness came and reported a death of another person experiencing homelessness in E.B. Rains Park to the CRU PM. The PM reported the death to the PD who was able to locate the deceased and work with the community to obtain witness statements.

### Project Updates

People are starting to enter appropriate shelters. In the month of October, three people entered long-term shelters and two found successful placements in those shelters. Three people utilized short-term shelters. One person has an intake date in November for long-term placement as well. The majority of people who have entered shelters are people who have been working with the Northglenn CRU for almost a year and have built a relationship to work on identifying appropriate places where they can feel successful.

Three people identified promising job leads and are working through background checks. Six people identified housing that they would be able to afford and are working on various applications.
